(i) An employer may provide group health insurance for retired employees or their spouses not covered by this section and may provide group health insurance that contains provisions more favorable to retired employees and their spouses than required by this section. A public employer may provide group health insurance to an employee who is on leave without pay for a longer period than required by subsection (h).

(j) An employer may elect to permit former employees and their spouses, including surviving spouses, to continue to participate in a group health insurance program under this chapter after the former employee (who is otherwise qualified under this chapter to participate in a group insurance program) or spouse has become eligible for Medicare coverage as prescribed by 42 U.S.C. 1395 et seq. An employer who makes an election under this section may require a person who continues coverage under this subsection to participate in a retiree health benefit plan developed under section 8.3 of this chapter.

(k) The state shall provide a group health insurance program to each retired employee:

(1) who was employed as a teacher in a state institution under:

2 member immediately before the employee's retirement.

3 (l) The president pro tempore of the senate and the speaker of the
4 house of representatives may not elect to pay any part of the premium
5 for insurance coverage under this chapter for a former member of the
6 general assembly or the spouse of a former member of the general
7 assembly whose last day of service as a member of the general
8 assembly is after July 31, 2007.
